New orders for the mentioned products will be accepted until end of December 2021, and the last deliveries will be made by 31st December 2022. We will do our best to accommodate all orders placed before this deadline, but please be informed that our ability to fulfil orders relies on component availability. We will not accept new orders for any of these products after 31st of December 2021. Consumables, spare parts and maintenance support will be available until the end of 2026.

If you would like receive more information, place a last-time-buy order, or hear more about our new handheld chemical detection solutions, please feel free to contact us!

Frequently Asked Questions

- **How and how long will ChemPro100i be supported after the End-of-Life announcement?**

ChemPro100i product support will be active until the end of year 2026. Product support includes consumables, spare parts and maintenance support.

- **What will happen after the product support has ended for ChemPro100i?**

After 2026 ChemPro100i is no longer an officially supported product. Envionics Oy will no longer provide spare parts, maintenance support, nor provide any training or other services for ChemPro100i.

- **Is there a compensatory product for ChemPro100i?**

Yes. ChemProX is the successor of ChemPro100i. ChemProX chemical detector offers all the same features and more than ChemPro100i.

- **Is there a trade-in / swap program for ChemPro100i?**

Yes. ChemPro100i detectors can be swapped to ChemProX detectors. Please discuss with your respective Envionics Area Manager regarding this possibility.

- **Will any obligations (frame agreements etc.) that reach beyond 2026 be fulfilled?**

Yes. Any obligations and agreements that go beyond 2026 will be fulfilled with ChemPro100i as agreed.

In Mikkeli 1st of march 2021
