ChemPro100i End of Life Reminder

Dear Valued Customer,

This letter serves as a reminder that the ChemPro100i handheld chemical detector will reach its End of Life (EoL) on December 31st, 2026. As previously communicated, after this date, Bertin Environics will no longer guarantee availability of consumables, spare parts, or maintenance support for ChemPro100i.

We encourage you to review your current usage and begin planning your transition to **ChemProX handheld chemical detector**, which offers enhanced performance, improved capability, and continued support.

To ensure a smooth transition, Bertin Environics team will gladly assist with product selection guidance and technical support throughout the transition.

If you have any questions or require further assistance, please contact us at sales-environics@bertin.group

Thank you for your continued trust in our solutions.

Sincerely,

Mika Saarinen
