End of Life Announcement, RanidPro200 Radionuclide Identifier Backpack Product Line

Dear valued Customer and Partner,

Bertin Environics announces end of life for RanidPro200 Radionuclide Identifier Backpack Product Line as of December 31st, 2027, in European Union, and as of December 31st, 2028, outside European Union.

Decision is made following careful analysis of global demand and considering the upcoming Cyber Resilience Act in the European Union, placing new requirements for product maintenance.

To minimize inconvenience to our valued customers, we will follow a controlled phase-out, as explained in this letter.

We will accept new purchase orders by December 31st, 2026. Last deliveries will be completed by December 11th, 2027.

End of Life will impact following products and optional accessories:

- **E12510, RanidPro200 with 2"x2" NaI(Tl) Detector Unit**
- **E13453, RanidPro200 with 3"x3" NaI(Tl) Detector Unit**
- **E12509, RanidPro200 with 1,5"x1,5" LaBr₃ Detector Unit**
- **E13452, RanidPro200 with 2"x 2" LaBr₃ Detector Unit**
- **E11827, Neutron Detector**
- **E12970, RanidSOLO**

Please feel free to reach out, should you have any questions. A few answers you may already find on the second page of this announcement.

Questions and Answers:

- How long will these products be supported by Bertin Environics?
 - o Until Dec 31st, 2027, in European Union
 - o Until Dec 31st, 2028, all countries outside European Union
- What will happen once product support ends?
 - o Bertin Environics can provide you with a 5-year Maintenance Agreement, securing a longer lifetime of your product. Agreements should be signed before the end of the announced product support, depending on your region.
 - o Customers without valid Maintenance Agreement will no longer enjoy the availability of consumables, spare parts, technical support, training or other services for the product.
- Will there be replacement products for discontinued products?
 - o Replacement products are not in our Roadmap currently. Therefore, there will not be replacement products.
- Will Bertin Environics respect their current contractual obligations?
 - o Yes.
