

END OF LIFE NOTIFICATION

Bertin Environics ENVI BioScout and Rugged ENVI BioScout

Dear Valued Customer,

Bertin Environics is committed to providing our customers with cost-effective products utilizing state-of-the-art technology. To keep up with this commitment, we have launched a new Biological detector, BioScoutX, and are announcing that following system components and all their relevant accessories have reached the end of their life cycle and will be phased out of production during the year 2026.

ENVI BioScout (All models):

E07035 ENVI BioScout AC

E08573 ENVI BioScout DC

Suggested replacements: E17180 BioScoutX, Connector, Biological detector

E17181 BioScoutX, Cable gland, Biological detector

Rugged ENVI BioScout (All models):

E11875 Rugged ENVI BioScout, Green

E11876 Rugged ENVI BioScout, Grey

E15451 Mobile BioScout

Suggested replacements: E17180 BioScoutX, Connector, Biological detector

E17181 BioScoutX, Cable gland, Biological detector

New orders for the products mentioned will be accepted until 31st of December 2026. We will do our best to accommodate all orders placed before this deadline, but please be informed that our ability to fulfil orders relies on component availability. We will not accept new orders from any of these products after 31st of December 2026. Please note that typical lead time for the new BioScoutX is 4 months from the order.

Consumables, spare parts, and maintenance support will be available until the end of 2031 excl. separate commitments & agreements which will be honored as agreed.

If you would like to receive more information, please feel free to contact us!

Mikkeli, 28th of September 2026

Aki Ahola
